## CONTINUING PROFESSIONAL DEVELOPMENT

2026 - 2027

## Message from the Directors of Education

“At Great Ormond Street Hospital Learning Academy, we are committed to developing a highly skilled, compassionate and future-ready paediatric workforce. Central to this ambition is our belief that the voices and lived experiences of children and young people should shape how professionals are educated. Continuing Professional Development (CPD) plays a critical role in ensuring that professionals across health, education and care are equipped to meet the increasingly complex needs of children and young people.

We are pleased to introduce our 2026/27 CPD offer, which brings together university-accredited programmes, specialist clinical modules, study days, simulation, medical education, and flagship events. This portfolio reflects our commitment to excellence in paediatric education, drawing on the depth of expertise at Great Ormond Street Hospital and our academic partnerships to support learners at all stages of their professional journey.

The programmes outlined in this brochure represent a snapshot of our current CPD offer. Alongside these, the Learning Academy works closely with organisations, systems and partners to design bespoke education solutions that respond to specific service, workforce and population needs. If there is a particular capability, pathway or challenge within your paediatric workforce that is not reflected here, we would welcome a conversation to explore how we can support you.

Through our CPD provision, we aim not only to build individual capability, but to strengthen services, improve outcomes for children and young people, and contribute to sustainable workforce development locally, nationally and internationally. We look forward to continuing to work with partners across the system to deliver high-quality paediatric education that makes a meaningful difference.”

## Information Webinars

for University Accredited Education

**Great Ormond Street Hospital and Middlesex University have embarked into a joint partnership.**

Join us for a webinar introducing our university-accredited paediatric education offers:

- (1) Standalone CPD modules and flexible graduate and postgraduate awards, and
- (2) Advancing and Enhancing Practice programmes

In these virtual sessions, we'll outline your study options. Whether you want to take a single clinically specialised CPD module, pursue a Graduate Certificate, Post Graduate Certificate, Post Graduate Diploma or Master of Science, or explore our Advancing and Enhancing Practice programmes ahead of the next intakes.

### What will the webinars cover?

- Our accredited paediatric CPD modules and postgraduate award structure
- Advancing Practice programme content and learning outcomes
- Application and admissions guidance through Middlesex University
- Learner support services
- Time for your questions

**Interested in attending? Please sign up for a webinar with our Head of Education, via our website.**

**SIGN UP HERE**

## Academic Skills

Are you new to postgraduate study? Would you like a refresher of key academic skills? Sign up for this short course with the GOSH Learning Academy.

Learn how to select and analyse research evidence, build your critical arguments, and more.

**Part 1:** Online learning

**Part 2:** Live group workshop (2 hours)

**Any questions?** [Academic.Programmes@gosh.nhs.uk](mailto:Academic.Programmes@gosh.nhs.uk)

## Monthly Module and Programme Planning Clinics

Whether you're starting fresh or already have university credits, our 15 minute, 1:1 sessions help you map out your next steps toward a Graduate Certificate, Post Graduate Certificate, Post Graduate Diploma or Master of Science.

### Our 1:1 planning sessions help you:

- Use previous credits
- Explore module choices
- Build a flexible award that suits your career

Hosted once a month via Teams with Academic Programme Manager. Open to all - whether you're starting out or continuing from previous study. **Sign up via our website.**
